THE PATENT MODERN ORGAN ACCORDIONS.

These instruments are a very fine improvement on the Accordion, from which their name is derived; they can be played with or without a stand, as shewn above; they have a tremblant stop which can be used *ad lib.* They are suitable for any kind of music, and any one who can play the Pianoforte or Harmonium can perform upon them immediately, the keys being exactly the same. The effects to be produced on these instruments are very beautiful, and there is no difficulty in accomplishing it.

The instruments are particularly suited for the Drawing-room, both for utility and appearance; size, 18 inches long, 9 inches deep, and 7 inches wide; compass, three octaves, F to F; three qualities of which are now made, prices £4. 10s., £5, and £6; those with extended scale of half an octave more, and of the very highest quality, are price 7 guineas. Folding Stand, with Pedal, for either size, 36s.; superior finish, 40s.

HARMONIUM NOTES & KEYS for persons wishing to manufacture an Harmonium. The Notes are made in unison, with either the 4, 8, or 16 feet organ pipes. Either of these sizes may be had at 22s., 26s., or 30s., the set of 5 octaves, according to the quality; but, like most things, the best is the most satisfactory, and cheapest in the end, because they do not get out of tune, and are very superior in power and quality of tone. 5 octaves of Keys on a frame, 30s., 32s., 34s., 36s., 38s., or 40s., according to the thickness and quality of the ivory.

Brass instruments of every description at various prices, according to the quality. Cornets with three valves, from 21s.

THE PORTABLE FOLDING HARMONIUM.

This is a very useful and neat little instrument for travellers. When open, the key-board is the usual height; the compass is 3 octaves, but it extends to 4 octaves by means of a stop. There is also a tremblant and 2 other stops, 4 in all. When done with, it will fold up into a handsome rosewood box, 22 inches long, 12 inches high, and 10 inches wide; it has 2 blowers for the feet. In fact, it is the most perfect portable Harmonium ever invented. Price 7 or 8 guineas, tutor and case included.

THE NEW PATENT CIRCULAR CORNETS AND HORNS.

For Illustration, see March number.

These are acknowledged by all who have played them to be the easiest, the best quality of tone, and the most powerful instruments they ever had; at the same time they are not only handsome in appearance, but the most portable brass instrument ever introduced. Some idea may be formed of the size of the Cornet, from the fact that the case (a black wood one) is only 9 inches high, 9 inches wide, and 6½ inches deep. All the others are in proportion, so that even the bass is comparatively but a small instrument. Prices as follows:—

Cornet, in case	4 0 0
Soprano circular horn, in E flat	3 10 0
Alto circular horn, in B flat	4 4 0
Tenor horn, in F and E flat	5 5 0
Baritone circular horn, in C and B flat	6 6 0
Bass horn, in C and B flat	8 8 0
Contre-bass circular horn	10 10 0

All these instruments have electro-plated mouthpieces.

ORGANINES,

With piano key-board. This instrument is also suited for travelling. It is the same compass, dimensions, &c., as the above, when shut, having 4 stops. You must lift the front part of the lid, same as a square Pianoforte, to get at the keys. The instrument can be placed on a chair or table; and there is a string from the bellows-handle which reaches to the ground, having a pedal, so that you are enabled to play with both hands. Price £5 10s.; the best, 6 guineas.

Guitars, Banjos, Gut, Silver, and Silk Strings, of all qualities.
